The following is an examiner's statement of reasons for allowance:

While Palma teaches the basic structure of applicant's inlet valve, there is no motivation to combine the two passages of the main reference into one passage by using the valve of Palma in this manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
